PLANTATION OF TREES

1.0 PURPOSE
To improve floral life & environments at project site of EPI.

2.0 SCOPE
Project sites of EPI.

3.0 RESPONSIBILITY
Site In-charge / RO In-charge

4.0 PROCEDURE
4.1 After establishing the site office and identifying work area, location(s) for plantation of trees shall be identified.

4.2 Any permission, if needed from the project authority, shall be obtained.

4.3 Saplings from the local nursery, donors, or any other source shall be obtained and stored properly till these are planted.

4.4 The planted saplings shall be protected to prevent these from any physical damage due to movement of construction equipment.

4.5 These plants shall be watered as per requirements and allowed to grow.

4.6 The trees shall be maintained till the completion of project.

4.7 In case of damage to the planted trees, the damaged tree(s) shall be replaced with the new ones at the earliest.
